

Patient Portal

With our patient portal, you have 24/7 access to your medical information. This secure portal allows you to easily schedule an appointment, view your account balance and make a payment, send a message to your provider, request a medical refill, and so much more. Contact your health center to get enrolled!

Frequently Asked Questions

How do I enroll in the patient portal?

Contact your health center to get enrolled. You'll need to provide a valid email address. A link will be sent to your email. You'll have 10 days to use that link to activate your account.

I forgot my username/password

You can reset your password or retrieve your username from the login screen. Simply click, "I forgot my username and/or password"
